B. Extended Abstract Narrative

Guide: Write concise paragraphs under each required component.

5. Community or Sectoral Need Addressed

Briefly describe in not more than 150 words the validated community, institutional, or sectoral need addressed by the project.

The extension project of the Davao del Sur State College (DSSC) titled “Kompos sa Loob ng Rehas” addressed the critical psychosocial isolation, emotional trauma, and silenced agency experienced by Female Persons Deprived of Liberty (PDL) at the Digos City District Jail.

Gendered incarceration often compounds societal stigma and psychological distress, leaving female inmates with limited constructive outlets to process trauma or articulate their lived experiences.

Institutionally, correctional facilities face a gap in humanistic rehabilitation programs that foster mental well-being alongside skill development. Sectorally, Higher Education Institutions (HEIs) require evidence-based models that extend beyond traditional technical-vocational training toward restorative and arts-literacy-integrated development.

By providing guided expressive writing activities to the participants, the initiative validated the essential needs for psychosocial healing, functional literacy, restored self-worth, education, skills development, and lifelong learning transforming punitive spaces into environments of human dignity and social reintegration.

6. Project Objectives

State the main objective/s of the extension project.

The main objectives of the **"Kompos sa Loob ng Rehas"** extension project are: first, facilitate structured narrative workshops and literary mentoring sessions that allow female Persons Deprived of Liberty (PDLs) to articulate unvoiced emotions, process personal trauma, and foster psychosocial healing; second, develop the participants' functional writing, communication, and creative expression capabilities, enabling them to produce literary compositions (poetry, personal essays, short prose, and others); third, curate, edit, and produce a formal compilation of the beneficiaries' literary works to validate their creative output, amplify their voices, and preserve their personal narratives; and lastly, strengthen the self-worth, emotional self-regulation, and interpersonal empathy of female PDLs to support their eventual social reintegration and uphold human dignity within correctional environments.

7. Extension Methods, Strategies, or Activities Implemented

Describe in not more than 300 words the major extension approaches, methods, strategies, or activities implemented.

To operationalize its rehabilitation objectives, the initiative employed a multi-faceted, participatory, and trauma-informed extension methodology structured around three synergistic pillars. First, faculty extensionists from Davao del Sur State College (DSSC) conducted modular and interactive writing sessions within the Bureau of Jail Management and Penology (BJMP) facility, utilizing guided narrative prompts, story-mapping techniques, and reflective journaling tailored to the participants' varied literacy levels. These sessions were coupled with personalized feedback mechanisms and peer-group sharing circles, deliberately cultivating a psychologically safe space for emotional processing, mutual support, and constructive literary refinement. Second, to concretize participant outcomes and affirm narrative agency, the extension team curated, edited, and formatted the beneficiaries' original compositions into a formal literary folio titled *"Kompos,"* effectively validating their creative labor. Finally, the sustainability and structural integration of the project were secured through a formalized inter-agency partnership between DSSC and the BJMP Digos City District Jail, establishing a replicable framework that directly embeds academic expertise into institutional correctional rehabilitation systems.

8. Key Outputs, Emerging Results, and Evidence of Outcomes, Adoption, or Utilization

Briefly present in not more than 300 words the documented outputs and emerging results of the project. Include available evidence of outcomes, adoption, utilization, capability-building, institutional change, or public value, if applicable. Claims must be supported by verifiable evidence.

a. Major Outputs or Emerging Results

Major Outputs

The initiative successfully realized its key operational outputs through a sequential, community-engaged execution framework. Initially, DSSC faculty extensionists conducted structured, modular sessions on guided expressive writing and creative literacy tailored to the diverse educational backgrounds of the female Persons Deprived of Liberty (PDLs). This instructional phase yielded a rich portfolio of original creative compositions, encompassing poetry, personal essays, and reflective prose that documented the participants' lived experiences and emotional recovery. Demonstrating tangible project translation, the extension team curated, edited, and produced three official volumes of the literary folio titled *Kompos I (Babae sa Loob ng Rehas)*, *Kompos II (Mga Pangarap sa Loob ng Rehas)*, and *Kompos III (Kalayaan sa Loob ng Rehas)*, formally preserving the beneficiaries' self-expression and providing a concrete platform to amplify their voices. Ultimately, these accomplishments institutionalized a specialized arts-and-literacy extension model within the ongoing partnership between Davao del Sur State College and the Bureau of Jail Management and Penology (BJMP) Digos City District Jail, reinforcing long-term, evidence-based correctional rehabilitation.

Emerging Results & Impact

Qualitative evaluations revealed significant psychosocial and developmental impacts among the female PDLs, underscored by marked improvements in emotional self-regulation, stress reduction, and overall mental well-being as participants systematically processed personal trauma through creative expression. Beyond therapeutic healing, the beneficiaries demonstrated tangible cognitive and linguistic gains, exhibiting enhanced written communication skills, expanded vocabulary, and heightened confidence in articulating complex thoughts and emotions. Crucially, this cognitive shift translated into behavioral adaptation, with participants proactively adopting daily journaling and reflective writing as sustained personal coping mechanisms within the facility. Ultimately, by establishing an inclusive, non-punitive space, the initiative effectively restored a sense of self-worth and purpose among the incarcerated women, positioning this institutional-led intervention at the forefront of higher education extension models that advance evidence-based, inclusive, and resilient community development through restorative justice.

b. Evidence of Outcomes, Adoption, or Utilization

[Type response here. If not yet available, write: "Not yet available."]

The project yielded transformative outcomes across beneficiary, institutional, and societal dimensions. First, female PDLs acquired functional literary and expressive capabilities, producing an extensive portfolio of original poetry, essays, and reflective prose that culminated in the production of the official "*Kompos*" Literary Folio. Second, participants integrated daily journaling and guided reflective writing into their routines as long-term personal coping strategies within their cells, with evaluative feedback demonstrating significant improvements in emotional self-regulation, increased self-worth, and a marked reduction in institutional isolation. Third, recognizing these tangible benefits, the Bureau of Jail Management and Penology (BJMP) Digos City District Jail formally integrated the expressive writing activities into its official rehabilitation and therapeutic community calendar, institutionalizing creative literacy as a permanent wellness

pathway. Finally, the initiative successfully amplified the lived experiences of incarcerated women, fostering public awareness around restorative justice while establishing a scalable, evidence-based extension model for Davao del Sur State College (DSSC) in humanistic and transformative community engagement.

Brief Summary	Ang pagsulat ay isang makapangyarihang paraan ng pagpapahayag ng damdamin, karanasan, at pag-asa hindi lamang ng mga taong nasa normal na kalagayan bagkus ay napakalaking tulong ito sa mga taong nangangailangan ng sosyal na paglala tulad ng mga <i>Person Deprived of Liberty (PDLs)</i>. Sa pag-aaral nina Acendera, et al. (2025) kaugnay sa mga mekanismo sa pagharap ng mga <i>Person Deprived of Liberty (PDLs)</i> sa mga isyu ng stress, mental health at iba pang mga hamon ay lumabas na ang mga kalahok ay lubos na nangangailangan ng mga gawing makatutulong sa pagpapatalim ng kanilang mental na kalusugan tulad ng mga gawing may kaugnayan sa edukasyon bilang bahagi ng kanilang rehabilitasyon. Kaugnay nito, isa sa mga makabuluhang gawain sa larangan ng edukasyon ay ang pagsulat ng mga komposisyon. Ayon kay King et al. (1988) na sinipi nina Espina, et al. (2009), ang pagpapat ay isa sa mga mekanismo upang mapahayag ng tao ang kanilang mga saloobin at mga nadarama tungo sa personal na pagbabago, paghiling ng emosyonal na sugat, at muling paghubog ng kanilang pakikatao na napatunayan din sa pag-aaral nina Martinez et al. (2025) hinggil sa paglalathag ng mga salaysay ng mga PDL. Nakalahad sa kanilang pag-aaral na ang mga programang rehabilitasyon ay kailangang higit pang paghasayin sa pamamagitan ng mga angkop na pamamaraan ng nagtataguyod ng pagpapatalim ng kasanayan, suportang emosyonal, at makabuluhang pakikilahok. Ang "Kompos sa Loob ng Rehas" ay isang extension project na naglalayong bigyang-boses ang mga kababaihang PDL sa pamamagitan ng pagsulat ng mga komposisyon o akda. Sa proyektong ito, ang pagsulat ay hindi lamang itinuturing na gawing akademiko, kundi isang paraan ng pagpapalakas sa sarili (<i>self-empowerment</i>), paghinay (<i>self-reflection</i>), at emosyonal na pagpapalaya. Sa pamamagitan ng <i>guided writing activities</i>, magkakaroon ng ligtas at suportadong espasyo ang mga kalahok upang ilahad ang kanilang mga karanasan—bilang tao at bilang individual na may pag-uusap magbago. Sa pamamagitan ng proyektong ito, matutulongan ang mga kalahok na: - malinang ang kanilang kakayahang pagsulat at komunikasyon; - magkaroon ng kumpiyansa sa sarili at pagpapahalaga sa sariling kakayahan; - maproseso ang kanilang mga damdamin sa positibo at malikhaing paraan; at - makapaghadana sa kanilang muling pagharap sa lipunan matapos ang paglala. Bilang pagtupad, ang panukalang ito ay nakabatay rin sa rekomendasyon mula sa pag-aaral nina Agustin, et al. (2024) hinggil sa mga karanasan ng mga PDL kung paano nila hinaharap

Summary of Activity:			
The extension activity titled "Education Behind Bars: Kompos sa Loob ng Rehas" was conducted on April 24, 2026, at the BJMP Female Dormitory in Digos City, Davao del Sur. Organized by the College of Teacher Education (CTEd) through its Extension and Community Services unit, the program engaged 27 Female Persons Deprived of Liberty. The activity focused on promoting education and self-expression through writing, providing participants with an opportunity to develop their communication skills and reflect on their experiences despite being in a custodial setting.			
Challenges Faced:			
- Changes of schedule from April 17, 2026 to April 24, 2026 due to conflict of activities in the venue. - Limited Learning Resources. The custodial setting restricted access to writing materials, references, and other instructional tools, which may have affected the depth and quality of participants' outputs. - Emotional and Psychological Barriers. Some participants may have experienced difficulty expressing themselves due to trauma, anxiety, or low self-confidence, which can hinder active participation in writing activities. - Time and Security Constraints. Strict schedules and security protocols within the facility limited the duration and flexibility of the activity, potentially affecting the continuity of instruction and engagement of the participants.			
Actions Taken to Address Challenges:			
- Provision of Basic Learning Materials. The facilitators prepared and distributed essential writing supplies such as paper and pens, along with simplified guides and prompts to support the participants despite limited resources. - Supportive and Safe Learning Environment. Facilitators employed an empathetic and encouraging approach, allowing participants to express themselves freely without judgment. Guided activities and positive reinforcement were used to help build confidence and ease emotional barriers.

Efficient Time Management and Coordination with BJMP Personnel. The activity was carefully structured into manageable segments to fit within the allowed schedule. Close coordination with BJMP staff ensured smooth implementation while adhering to security protocols.			
Lessons Learned:			
- Education as a Tool for Transformation. Even within restrictive environments, meaningful learning activities like writing can empower participants to reflect, heal, and rediscover their sense of purpose. - Importance of Context-Sensitive Teaching Approaches. Facilitators must adapt strategies to the emotional, social, and environmental conditions of learners, ensuring that activities remain inclusive, respectful, and responsive to their needs. - Value of Collaboration and Preparation. Successful implementation depends on thorough planning, resourcefulness, and strong coordination with partner institutions, particularly in highly regulated settings such as correctional facilities.			
Activity Evaluation:			
The overall experience and satisfaction of the activity was excellent with a mean score in the evaluation of 4.0. Out of 27 attendees, 100% of evaluation forms returned with all areas rated 4.0 which is excellent.			
Recommendations:			
- Sustain and Expand the Program. Conduct the activity regularly and consider expanding it to include more participants or additional modules (e.g., poetry, journaling, storytelling) to further enhance literacy and self-expression. - Provide More Learning Resources. Allocate additional materials such as notebooks, reference guides, and reading texts to enrich the learning experience and support continuous practice. - Integrate Psychosocial Support Activities. Incorporate sessions that promote emotional well-being, such as reflective writing, group sharing, or basic counseling support, to complement the educational aspect of the program. - Strengthen Partnerships with BJMP and Other Stakeholders. Maintain close coordination with BJMP personnel and explore partnerships with NGOs or other institutions to ensure sustainability and resource support. - Implement Monitoring and Evaluation Mechanisms. Develop simple assessment tools or feedback systems to track participants' progress and improve future implementation of the activity.

9. Sustainability Direction or Next Steps

Explain in not more than 150 words how the project will be sustained, institutionalized, scaled, or improved, or state the next steps for ongoing projects.

To ensure long-term impact, *Kompos sa Loob ng Rehas* will be sustained through a formalized multi-year Memorandum of Agreement (MOA) for the project Kompos sa Loob ng Rehas between Davao del Sur State College (DSSC) and BJMP Digos City District Jail, institutionalizing expressive writing into the facility's regular therapeutic community program.

The project will scale by establishing an annual publishing cycle for the ***Kompos Literary Folio***, expanding distribution to libraries, advocacy groups, and digital open-access platforms to amplify PDLs' voices. Next steps include training peer literacy facilitators among long-term inmates for sustainable mentoring, integrating expressive arts-literacy therapy modules, and building post-release reintegration support through community writing networks and local government partnerships.
